

# Low Income Community Group California Community Resources

## Resources for Financial Assistance

<https://gmillican10.github.io/cmppm131/>

**Summary:** Because our target users are part of the low-income community, the challenge was to create a design that is both informational, easy to use, and pleasing to the eye to avoid overloading the users with information. Our website offers financial aid resources regarding housing, jobs, food, and education for communities that need support to help alleviate a lot of the financial challenges throughout the COVID19 Pandemic.
